#### ACCESSORY STRUCTURE ZONING PERMIT

#### When is an accessory structure permit required?

An accessory structure permit is required prior to constructing, replacing, expanding or moving any detached structure (e.g. shed, detached garage, propane tank).

#### What do I have to do to receive an accessory structure permit?

- To receive an accessory structure permit, a zoning permit application must be complete in full and submitted to the Planning and Zoning Department along with the application fee. The permit must show all existing and proposed accessory structures.
- If the accessory structure exceeds 200 square feet, a full set of construction drawings along with three copies of a site plan drawn to engineering scale (e.g. 1"=30") are required.
- The information given on this application should be in compliance with the requirements of Chapter 158.104 of the Zoning Code, as summarized below.

### How long will it be until I receive notification?

The application will be reviewed in one to two business days and you will be notified by telephone when the application has been approved, or if additional information is needed.

#### Will the permit expire?

The permit will expire six months from the date of approval.

#### What's the next step?

A Greene County building permit is required after you receive a zoning permit from the City for all accessory structures over 200 square feet.

### **Accessory Structure Requirements**

- Detached garages may not be located nearer to the front property line than the main dwelling. All other detached accessory structures are permitted only in the rear yard.
- Accessory structures may not be placed closer than ten feet to any side or rear property line or within ten feet of an alley and may require larger setbacks if easements require.
- Accessory structures may not exceed 16 feet in height.
- Maximum size: Within any residential district, the sum of the floor area of all accessory building shall not exceed 600 square feet, except in the case where the footprint of the principal structure is greater than 1,200 square feet. In this case, the sum of the floor area of all accessory building shall not exceed 50% of the footprint of the principal structure, or 900 square feet, whichever is less. In cases where the lot size is one acre or greater, the sum of the floor area of all accessory buildings shall not exceed 50% of the footprint of principal structure, or 900 square feet, whichever is greater. Within commercial districts there shall be no more than one accessory building, which shall not exceed 100 square feet in floor area.

## Prohibited accessory structures

Quonset huts, inflatable garages, and portable garages, temporary garages, portable carports, temporary carports, portable containers, converted storage or shipping containers, and semi-tractor trailers used for storage (with or without wheels) are prohibited accessory structures in residential and commercial districts.

If you have any questions, a staff member in the Planning and Zoning Department is available to assist you Monday through Friday from 7:30 a.m. to 5:00 p.m.
